

IN THE YOUNG AND RISING GENERATION, the vegetative powers of life are strong; but, in a few years, how often the pallid hue, the lack-lustre eye, and emaciated form, and the impossibility of application to mental effort, show its baneful influence!

HELMHOLD'S FLUID EXTRACT BUCHU FOR WEAKNESS ARISING FROM EXCESS OF INDISCRETION.

Attended with the following symptoms:—Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dizziness of Vision, Langour, Universal Lassitude of the Muscular System, Often a nervous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Face, Dryness of the Skin, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness with Horror of Society, Nothing is more desirable to such Patients than Solitude, and repose of Mind, no Excitement, no Speculation, but a hurried Transition from one question to another.

These symptoms, if allowed to go on, which this Medicine invariably removes—soon follow Loss of Power, Fatigue, and Epileptic Fits, in one of which the patient may expire.

During the Superintendence of Dr. Wilson, at the Bloomingdale Asylum, this result occurred in two patients: reason had for a time failed, and both died of epilepsy.

Who can say that these excesses are not frequently followed by those direful diseases, INSANITY and CONSUMPTION? The records of the insane Asylum, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appear. The countenance is actually sallow and quite destitute—neither Mirth or Grief visits it. Should a sound of the voice occur, it is rarely articulate.

Low sunken cheeks, low forehead, and sunken eyes, whilst we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences—

HELMHOLD'S HIGHLY CONCENTRATED FLUID EXTRACT OF BUCHU.

THERE IS NO TONIC LIKE IT. It is an anchor of hope to the surgeon and patient; and this is the testimony of all who have used or prescribed it.

HELMHOLD'S FLUID EXTRACT BUCHU for Non-retention or Incontinence of Urine, Irritation, Inflammation or Ulceration of the Bladder or Kidneys, Calculus of the Prostate Gland, Stone in the Bladder, Catarrh, Gravel, Stricture, Gonorrhoea, and all Diseases of the Bladder, Kidneys and Urinary Passages.

HELMHOLD'S FLUID EXTRACT BUCHU, in Affections peculiar to females, is unequalled by any other preparation, as in Chlorosis or Retention, Irregularities, painfulness or suppression of customary evacuations, Ulceration or Scirrhous state of the Uterus, Leucorrhoea, and all complaints incident to the sex, whether arising from habits of diet, or from imprudences, or in the Decline or Change of Life.

HELMHOLD'S FLUID EXTRACT BUCHU AND IMPROVED ROSE WASH

Will radically exterminate from the system Diseases of the Urinary Organs arising from habits of dissipation at little expense, little or no change in diet, and no exposure, completely suppressing these annoying and dangerous remedies, Copah and Mercury, in curing those unpleasant and DANGEROUS DISEASES.

USE HELMHOLD'S FLUID EXTRACT BUCHU in all cases of the Urinary Organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and color, immediate in its action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from Broken-down or Delicate Constitutions procure the remedy at once.

The reader must be aware that however slight may be the attack of the above disease it is sure to affect the body, all mental powers, happiness, and that of posterity. Curfish and blood are supported from these sources.

PHYSICIAN, PLEASE NOTICE!

We make no secret of the ingredients. HELMHOLD'S FLUID EXTRACT BUCHU is composed of Buchu, Capsicum and Juniper, and is prepared by the most eminent chemists, has been admitted to use in the City of Philadelphia, and is also in use by the most eminent physicians, in all the State Hospitals, and in the various Asylums for the Insane.

Dr. Kewyer is a Physician of over twenty years' experience, and is the President of the Jefferson Medical College, and of the University of Medicine and Surgery of Philadelphia.

Dr. H. T. Helmhold.—Dear Sir:—In regard to the question asked me as to my opinion about Buchu, I would say that I have used and sold the article in various forms for the last thirty years. I do not think there is any form of preparation of it that I know of known to be used in the various diseases where such medicine agent would be indicated. You are aware, as well as I am, that Buchu is a powerful diuretic, and in the various diseases of the bladder and kidneys, and the reputation it has acquired in my judgment is warranted by the facts.

I have seen and used, as before stated, every form of Buchu—the powder, the extract, and the fluid. I have seen it used at that place, at all seasons, for twelve years' experience, and I think I give you the first judgment of its merit and without prejudice or partiality. I give your precedence over all others. I do not value it as a medicine, but as a tonic, and I believe it is a compound that will do more good than a gold-digger.

I value your Buchu for its effect on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other Buchu, or any other preparation of compound of whatever name.

AUGUST 11, 1865.

HELMHOLD'S FLUID EXTRACT OF SARSAPARILLA, HIGHLY CONCENTRATED.

One bottle equivalent in strength to one gallon of the Syrup or Decoction.

It reaches the seat of the disease immediately, expelling all HUMORS OF THE BLOOD, and BRUIFIFYING THE COMPLEXION!

These articles, being of such strength, the dose is exceedingly small. From this fact it is used in the United States Army Hospitals and public Sanitary Institutions throughout the land.

THE WORLD OF FASHION.

Latest Modes for Dresses—The Changes in Styles for Bonnets and Chapeaux—New Materials in Vogue, Etc. Etc. Etc.

To describe the gradual change of the fashions from week to week is a matter requiring more care and observation than would at first sight appear to the readers of the fashion column, and so slight are the changes that take place in the course of a few days, that it is almost impossible to say anything new on the subject from one week to another.

The foreign journals for the present week, however, teem with interesting news on this subject. Our French friends have, apparently, vied with each other in doing honor to our fair countrywomen, Adeline Patti; and, as if their custom to show by their manner of dressing their admiration for anything or anybody, they have afforded an abundant opportunity to describe the latest toilettes. The following are a few of the most brilliant costumes lately worn in Paris, and our fair friends will find it their advantage to bear in mind these descriptions in getting ready for the wardrobe for the coming season.

A white tulle dress, bouillonnée round the lower half of the skirt; a low cut bodice, made of straw, with a very full and very high collar, and the vandykes sashed together again with straw satin piping; a deep bouffant of point d'Angleterre was worn all round the neck; a narrow bouillonnée of white tulle replaced the lower part of the bodice. The head dress was composed of flat gold braids, with a cascade on the side of the hair.

A second and more original costume, consisted of a white Chambery gauze dress, with wide satin stripes on it; under this a pink glass slip, shot with white. The gauze dress was in the Empire form, and was cut round the neck and the vandykes. These vandykes were bordered with a noched out pink silk ruche, edged with narrow white tulle, and finished with a pink glass slip, shot with white. A youthful bruno, whose beauty created quite a sensation, made a very novel toilet. The dress was white, and replaced the lower part of the bodice. The head dress was composed of flat gold braids, with a cascade on the side of the hair.

The Government in possession of evidence going to show that a number of freedmen have been kidnapped from Georgia and smuggled off to Turk's Island, to be forced work in the salt mines, or transferred to agents engaged in the Cuban slave trade.

Santa Anna has sent a delegation of his friends here to try and work up his case. They called upon Senor Romero, who refuses to countenance their schemes, as he deems Santa Anna an ambitious and dangerous man, in the interest of Maximilian. Secretary Seward says he gives them no material encouragement.

General Thomas, late Bureau Commissioner for the State of Mississippi, and now on General Howard's staff, reports that before the war that State used to raise 1,000,000 bales of cotton, or nearly one quarter the entire yield of the United States. He thinks this year's crop will reach 600,000 bales. He says the best lands along the banks of the Mississippi river are being cultivated by Northern men, with adequate capital, who enjoy special facilities for securing labor and supplies over the old planters, who occupy the lands of the interior.

The flooding of the river banks, he thinks, will not injure the cotton crop; but if it should, replanting may be continued up to the middle of June with assurance of a good crop. Colonel Byron Latta, of New York, who has a cotton plantation in North Carolina, gives a very interesting account of the prospective yield of that State.
